

GROUNDING: ECOLOGY, FAITH, HOPE

May 25-26 2018

Bracebridge United Church

An event in Bracebridge, Ontario for thoughtful people of faith who know that to live an effective response to today's ecological crisis we must continue...

Renewing our Hope

Renewing our Stories

Renewing our Theology

Renewing our Imagination...

and to do this in dialogue with environmental science.

That's why this is a companion event to *Muskoka Summit on the Environment*, May 24-25 with its 2018 theme of "Restoring our Relationship with the Natural World". *Grounding* will follow May 25-26.

Come be inspired, think, discuss, share action strategies, network, hear and engage:

Bob Haverluck

Canadian artist and theologian.

Rabbi Ellen Bernstein

Biblical scholar and founder of the first national Jewish environmental organization in the United States.

Adrian Jacobs

Indigenous (Haudenosaunee) theologian.

Dr. Stephen Scharper

Associate Professor at the School of the Environment and the Dept. for the Study of Religion at the University of Toronto.

Lloyd MacLean

Worship leader, musician, member of Common Cup Company
